

MANITOBA YOUNG BROKER NETWORK

Subcommittee of IBAM

WHO WE ARE

The Young Broker Network (YBN) is a group of young professionals. We strive to enrich and give back to our communities through charitable donations as well as volunteer work.

The YBN give the young professionals in our industry an opportunity to interact with brokers, gain valuable industry connections, as well as further educational opportunities.

OUR MISSION

Foster a strong network of young brokers through education, industry involvement and professional development for the future of the brokerage profession.

THE NETWORK

In 2000, Manitoba became the first Province to start a Young Broker Network. Created to provide a network of young brokers to connect and share ideas, promote education opportunities, to make a difference in the community and to promote the insurance industry as a career option.

While the Young Broker Committee is only open to IBAM members under the age of 40, it is encouraged for members of all ages and experiences to participate in our events.
